Himalaya College of Engineering(HCOE)

Executive place: College Representative(CR)

Membership Number: CKA2309

Date : 13 Aug,2023

Signature: Bheshraj

REPORTED TO:

Barsha Poudel | Project Lead ,CFC

Kabina G.C | HR Lead , CFC

Executive Summary:

The goal of this biannual report is to summarize all of the initiatives I have conducted as the CR of Code for Change. This report included all of **CFC**'s events and meetings during the previous six months, as well as the General members' activities and valuable presence at **CFC**-organized events. Furthermore, it also incorporates the plans and method advancements that may be used for the improvement of the individual turn of events and the progress of the overall group.

Key Activities as College Representative (CR)

- Number of Members from Himayala College of Engineering :11(1 Executive , 2 CRs , GenMemb's)
- Number of event done in our college: 1

Individual Member Report

S.NO	Name	Event Attend	justifications for not attending other events
1.	Asmita Sharma	Business Proposal , Cover Letter Cv	She told me that she will attend all forthcoming events despite her hectic schedule preventing her from attending other events.
2.	Jyoti Bhandari	Business Proposal , Cover Letter Cv	According to her, "She has already learned web development, git, and github, she is not interested to take other events."
3.	Pratik Jung Karki		He was unable to attend events since he was too busy learning and developing himself.

8.	Suraj Pathak	Business Proposal , Cover Letter Cv LinkedIn Profile Development Web Dev(phase 1 & 2)	He attended most of the events, but he was unable to attend few events because of the heavy workload of his exams.

Impact created in the college through CFC

Code for Change has a fantastic vision, and because of this vision, it is rising to new heights at our college. We have had a positive influence here. Therefore, our college's departments and teachers are constantly interested in organizing events , and my friends have wanted to get in touch with **CFC**. We'll make an effort to host additional events while continuing to work toward our objective.

Branding of CFC in College Students and College Administration

Shreyash Dai and I have been actively working toward achieving **CFC** objectives ever since we joined as CRs. With the department's support, we held git and github events at our college. Our event received positive feedback from the department, and our HOD sir wanted further events. Students are eager to participate in **CFC** in order to develop themselves further

Retention of Members from College

Due to the motivating and supporting nature of core members, executive members and college representative helps general member to feel connected and understand **CFC** values and culture. As well **CFC** organizes various emerging technological events and shares ideas which

keeps general member to update on current topic. As a result, more member wants to be part of CFC family.

Key Learning:

- Different skills from the workshop and communication abilities.
- Leadership and Organizing abilities.
- Organizational mindfulness and time management
- Ability to co-ordinate well during projects between the team members.
- Idea of organizing events like hackathons, workshops etc

Implementation of learning from CFC within CFC

It has already been six months since I was a part of . I have learned to work in groups, my negotiation capacity has increased, and I have learned to organize and handle events. I use this learned skill as a general member so that I can easily collaborate with members and circulate event details to members.

Major Accomplishment:

- Ability to educate and coach.
- Ability to work in group/team.
- Managing abilities.
- Development of coding habits.
- Ability to conduct events in my own campus.
- Improvement in communication skills

Problems and Obstacles:

Dealing with a group is a test in itself if the group isn't true to its values. Here are some challenges that I have faced myself in my time since I joined this organization:

- Pressure during exam time.
- Time management.
- Lack of communication between general members and executive.
- Dealing with inactive member from my own college

Way Forwards

I want to acquire more skills and knowledge means having something very important called “diversity”, and having that one extra skill that might set me apart from the rest and provide an opportunity to get to the next level. I would love to expand my networking as well as through various interaction with different IT professionals.

Conclusion

At last, we know that morning shows the day. In these six months, I have gained good skills and a good team from **CFC**. **CFC** has helped me expand my horizons. I know the upcoming days will also be remarkable for me.
